

## CALL FOR KAVISAMMELANA AND ŚĀSTRACARCĀSADAS

In the past, only Sanskritists from India have participated in the **Kavisammelana** and the **Śāstra-carcā-sadas**. It is the wish of the organizers that Sanskritists outside India should also participate in these events. If you live outside India and think you can make a presentation in Sanskrit in either event, please get in touch with the organizers of the events as soon as possible (Prof. Radhavallabh Tripathi for the **Kavisammelana** and Prof. Kutumba Shastri for the **Śāstra-carcā-sadas**).

The email address of the former is <radhavallabh2002@gmail.com> and of the latter is <kutumba50@yahoo.com>; the topic for the Śāstra-carcā-sadas is ***Indian Logic - Its Interrelationships***. Please note that since the composition of the Indian participants has already been determined and the time available for the events is limited, it may not be possible to accommodate every expression of interest. However, the organizers will try their best. The contributions proposed should not take more than 5 minutes. If any linguistic assistance with the text to be read is needed, a pdf of the text should be sent to the relevant organizer and, if necessary, an appointment to meet the organizer at Kyoto before the event should be made.
